50X1-HUM

1. The workers council of the large paper factory which is being constructed on the site of an old sugar beet factory in Steti (051/F72), and which is expected to start production on 1 September 1952, was notified in March 1952 that 300 to 500 Chinese will start work in this factory during September. The council also received information that every year, starting from 1952, 50,000 Chinese will be placed in Czechoslovak industries for one year of training.
2. In March 1952 the workers council also received an invitation from the Oriental Institute in Prague to order the magazine Novy Orient (New Orient). In the invitation they were told that in the near future the education branch of the Trade Union Council would issue an appeal to all workers in factories to start learning Chinese, and the education officers in factories would start Chinese courses. The reason for this was stated to be the forthcoming introduction of Chinese labor into Czech factories.
